11.3mm
spacing

This is meant to be the standard layer stack from KC website at 133um total thickness. The adhesive layers are listed as dielectric

Layer	Name	Material	Thickness	Gerber
	Top Overlay			GTO
	Top Coverlay	FC-001	0.012mm	GTS
1	Top Layer	Copper	0.020mm	GTL
	Dielectric 2	Composite dielectric	0.028mm	
	Dielectric 1	Composite dielectric	0.012mm	
	Dielectric 3	Composite dielectric	0.028mm	
2	Bottom Layer	Copper	0.020mm	GBL
	Bottom Coverlay	FC-001	0.012mm	GBS
	Bottom Overlay			GBO

Top side stiffener to 0.3mm total thickness in designated region
Silkscreen: white
Finish: immersion gold
Coverlay:
yellow/transparent
(typical color)
This is the FPC outline layer,
please note cut-out regions
